

## DTA North West Regional Network Meetings

### [Regional Network Meetings](#)

---

Regional Meetings provide a great opportunity for members in the North West to come together to share experience and information; make useful contacts with members and staff; inform/learn about DTA programmes and initiatives and to contribute to the DTA as a member-led organisation.

We also invite non-members to join the meetings for the Open Session in the afternoon. Non-members will join members for lunch and networking and continue into the afternoon programme.

4 meetings are facilitated each year across the region. These take place in July, November, February and May. We have a rolling schedule to ensure full coverage of all sub-regions to ensure that everyone gets an opportunity to attend a meeting in their sub-region.
