

## Community Assets: Additional Resources

### [Useful resources from the DTA and other organisations on how to develop a community asset](#)

---

#### Online publications on developing an asset base

This page provides a number of additional resources from the DTA and other organisations that range from general information to "How to" guides on developing an asset base.

- [Community Share and Bond Issues](#) Development Trusts Association (2007). This publication explains how community organisations can use share and bond issues as a source of funding.
- [The Green Asset Guide](#) Development Trusts Association and the Environment Trust (2007). This guide offers a summary of approaches you can take to reduce the environmental impact of your community building.
- [To Have and To Hold](#) Development Trusts Association (2005). This publication will provide a broad range of information, resources and contacts to help you develop a land or building project as an asset for your organisation and local community.
- [Quirk Review](#) Published in May 2007, this report outlines the findings of the Quirk Review into community ownership and amangement of public assets.
- [Opening the transfer window](#) The government's response to the Quirk Review of Community management and ownership of public assets, published in May 2007.
- [Building on strong foundations](#) Published in February 2008, this document provides a framework for local authority asset management.
- [Managing risks in asset transfer](#) Published in June 2008, this practical guide offers advice on managing risks in asset transfer, based on the experiences of local authorities and third sector organisations

#### [Bristol City Council - Asset Transfer Research - Final Report](#)

September 2004, a report by Pulse Regeneration and Urban Strategy Associates

#### [Asset transfer: A can-do guide](#)

Development Trusts Association, November 2001

#### [Developing an asset-base](#)

Development Trusts Association, March 2001

Please visit this page regularly for updates on new publications related to developing an asset base.
