

## Activities

We are involved in a range of activities that

- help people set up new development trusts
- help development trusts work effectively
- influence others to support our movement

We believe that expertise exists within communities and that community organisations benefit from the sharing of skills and knowledge from across the community sector, therefore we actively promote the sharing of skills and knowledge and arrange numerous networking and learning opportunities.

We also raise awareness about development trusts and we build partnerships and attract investment to the movement.

- [Products & Services](#) With support from our members and partners we have developed a number of products & services to assist development trusts and other community enterprises.
- [Policy & Campaigns](#) We are involved in a number of projects and campaigns which help strengthen the movement and attract investment to the sector.
- [Partnerships](#) We have developed a range of partnerships with the public, private and third sector.
- [DTA Consultancy](#) We have developed a consultancy branch which will draw on the expertise of our members and carry out work which further our aims and objectives
