

Community Of Interest Members

In building the community enterprise movement we are expanding our membership to include community of interest organisations alongside our member development trusts.

This is a category of Associate membership that is specifically designed for BME/faith/disability/gender and other identity specific organisations which are setting up or supporting community enterprise activity. We believe such organisations have a lot to offer to our movement and equally have a lot to gain from membership of the DTA.

As Associate members of the DTA, Community of Interest members will automatically benefit from the [DTA's core member offer](#). In addition Community of Interest Members also benefit from:

- An introductory offer of one year's free membership and membership at 'preferential' full member rates thereafter
- access to our Knowledge and Skills Exchange small grants fund
- free legal advice from interchange legal Advisory Services
- free VAT advice from Delloitte
- discounted insurance services from Finance ReDirect
- one free subscription to New Start Magazine
- full range of products and services from partner organisations in the Community Alliance.

For further information on Community of Interest membership please contact A DTA Development Manager in your [region](#). Alternatively contact the Member Services team on 0845 458 8336 or email info@dta.org.uk.
